

**ADMINISTRATIVE MEMORANDUM**

**VPAA 15-06**

**June 16, 2016**

**SUBJECT:           The Center for Service Learning and Academic Internships (CSLAI) Name Changed to the Center for Community-Based Learning**

**DISTRIBUTION:**   All Campus Staff and Faculty

At the request of the department, and with the endorsement of the Provost, approval has been granted to officially change the name of the Center for Service Learning and Academic Internships (CSLAI) to the Center for Community-Based Learning, effective immediately.

This change comes out of a year-long process led by the CSLAI Advisory Committee (a group made up of faculty, community partners and Center students and staff), and was made to better engage students and to reflect the pedagogical approach and partnerships between campus and community based education. The Center for Community-Based Learning will continue to serve students, faculty and community partners in promoting reciprocal connections through integrated academic coursework and service in the community.

Please ensure that relevant documents, messages, websites, etc., reflect the name change.
